**ADVISORY ON PSEUDONYMOUS CALL BY PAK INTELLIGENCE
OPERATIVE TO GATHER SENSITIVE INFORMATION**

1. This letter pertains to the reports received from Military Intelligence, Intelligence Agencies and Local Police that Pakistan Intelligence Operatives (PIOs) have obtained various details regarding military movement from a railway employee posted in Firozpur Division. The suspected employee came in contact with PIO through social media and allegedly shared photographs of some critical military instalations.
2. The above incident of breach of security amounts to grave threat to National Security and also compromised Military Operational Plans. Therefore, it is desired that officers and staffs may be instructed to sensitize about the critical nature of the information regarding movement of Military special trains and gravity of the issues.
3. Hence, it is requested that all officers and staffs may kindly be instructed that in case any individual seeks information about military movements, no information should be divulged to unauthorised persons.
4. This issue may be treated as most urgent and strict implementation to prevent such occurrence in future, as this may compromise National Security.
