

ARRANGEMENT OF RULES

RULES	SUBJECT	PAGE NO
CHAPTER I		
PRELIMINARY		
1.01	Short title and commencement	01
1.02	Definitions	01
1.03	Classification of stations	07
CHAPTER II		
RULES APPLYING TO RAILWAY SERVANTS GENERALLY		
2.01	Supply of copies of rules	08
2.02	Upkeep of the copy of rules	08
2.03	Knowledge of rules	08
2.04	Assistance in observance of rules	09
2.05	Prevention of trespass, damage or loss	09
2.06	Obedience to rules and orders	09
2.07	Attendance for duty	09
2.08	Absence from duty	09
2.09	Taking alcoholic drink, sedative, narcotic, stimulant drug or preparation	10
2.10	Conduct of Railways servants	10
2.11	Duty for securing safety	10
CHAPTER III		
SIGNALS		
A. GENERAL PROVISIONS		
3.01	General use of signals	13
3.02	Kind of signals	13
3.03	Use of night signals by day	13
3.04	Placing of signals and signal arms, painting of signal arms	13
B. DESCRIPTION OF FIXED SIGNALS		
3.05	Use of fixed signals	14
3.06	Description of Warner signals and their indications	14
3.07	Description of Distant signals and their indications	18
3.08	Description of Stop signals and their indications	21
3.09	Kinds of fixed Stop signals for approaching trains	28

3.10	Kinds of fixed Stop signals for departing trains	28
3.11	Intermediate Block Stop Signal	30
3.12	Kinds of fixed stop signals in Automatic Block territories	30
3.13	Calling-on signals	30
3.14	Shunt signals	35
3.15	Co-acting signals	38
3.16	Repeating signals	38
3.17	Distinguishing markers and signs for signals	41
3.18	Signals out of use	43
3.19	Placing of signals at diverging junctions	43
3.20	Placing of Stop signals at converging junctions	44
3.21	Signals on bracket post or signal bridge or gantry	45
3.22	Placing of more than one signal on the same post	45
3.23	Electric repeater	45
3.24	Back-lights	47

B. EQUIPMENT OF SIGNALS

3.25	Obligation to provide fixed signals at stations	48
3.26	Commissioning of fixed signals	48
3.27	Minimum equipment of fixed signals at stations provided with manually operated multiple-aspect signaling	49
3.28	Minimum equipment of fixed signals at other stations provided with two-aspect signalling	49
3.29	Minimum equipment of fixed signals at other stations provided with two-aspect signalling	49
3.30	Additional fixed signals at stations generally	49
3.31	Signals at class 'D' stations	49
3.32	Provision of an Advanced starter, Shunting Limit Board or Block Section Limit Board	49
3.33	Exceptions to Rules 3.27, 3.28, 3.29 and 3.32	50
3.34	Fixed signals at level crossings	51
3.35	Protection and working of points of outlying sidings	51

D.WORKING OF SIGNALS AND POINTS

3.36	Fixed signals Generally	52
3.37	Normal aspect of signals	53
3.38	Points affecting movements of train	54
3.39	Locking of facing points	59
3.40	Conditions for taking 'off' Home signal	59
3.41	Conditions for taking 'off' Outer signal	61
3.42	Conditions for taking 'off' last Stop Signal or Intermediate Block Stop Signal	62
3.43	Conditions for taking 'off' Warner Signal	62
3.44	Conditions for taking 'off' Gate Stop signal	62
3.45	Conditions for taking of Calling-on-signal	62
3.46	Use of fixed signals for shunting	62

3.47	Taking `off` signals for more than one train at a time	62
3.48	Stoppage of trains out of course at stations provided with two-aspect signalling	63
3.49	Care and lighting of signal lamps	63
3.50	Traps, slip sidings and catch sidings	67
3.51	Points	68

E. HAND SIGNALS

3.52	Exhibition of hand signals	71
3.53	Stop hand signal	72
3.54	Proceed hand signal	73
3.55	Proceed with caution hand signal	74
3.56	Hand signals for shunting	75
3.57	Banner flags	78
3.58	Knowledge and possession of hand signals	79

F. DETONATING SIGNALS

3.59	Description of detonating signals	79
3.60	Method of using detonators	79
3.61	Placing of detonators in thick, foggy or tempestuous weather impairing visibility	79
3.62	Placing of detonators in case of obstruction	83
3.63	Replacement of detonators on the line	84
3.64	Knowledge and possession of detonators	84

G. Signal to warn incoming trains of danger ahead

3.65	Description	93
3.66	Use of Warning signals	93
3.67	Knowledge and possession of warning signals	94

H. DEFECTIVE FIXED SIGNALS AND POINTS

3.68	Duties of Station Master generally when a signal is defective	96
3.69	Duties of Station Master when an approach Stop signal is defective	101
3.70	Duties of Station Master when a departure Stop signal is defective	107
3.71	Warner or Distant signals defective in the `off` position	109
3.72	Warner not to be used when Stop signal is defective	109
3.73	Passing of a gate Stop signal at `on`	109
3.74	Absence of a fixed signal or a signal without a light	110
3.75	Passing of Intermediate Block Stop signal at `on`	111
3.76	Intimation to Officials when defects remedied	114
3.77	Defective or damaged points etc.	114
3.78	Duties of engine crew in respect of signals	114
3.79	Duties of Loco Pilot in respect of a Calling-on signal	117
3.80	Duties of Loco Pilot when an approach Stop signal is `on` or defective	117

3.81	Duties of Loco Pilot when a departure Stop signal is 'on' or defective	118
3.82	Permission before entering on or crossing a running line	119A
3.83	Assistance of the engine crew regarding signals	119A
3.84	Duties of Loco Pilots as to signals when two or more engines are attached to train	120
3.85	Reporting of defects in signals	120

CHAPTER - IV

WORKING OF TRAINS GENERALLY

A. TIMING AND RUNNING OF TRAINS

4.01	Standard time	121
4.02	Adherence to advertised time	121
4.03	Setting watch	121
4.04	Time of attendance for train crew	121
4.05	Proper running line	122
4.06	Direction of running	122
4.07	Supply of Working Time Table and Schedule of Standard Dimensions	122

B. SPEED OF TRAINS

4.08	Limits of speed generally	123
4.09	Caution Order	124
4.10	Limits of speed over facing points	137
4.11	Limits of speed while running through stations	138
4.12	Engine pushing	138
4.13	Limits of speed with engine tender foremost	140

C. EQUIPMENT OF TRAINS AND TRAIN CREW

4.14	Headlight and marker lights	140
4.15	Tail and side lights	141
4.16	Tail board or tail lamp	143
4.17	Responsibility of Station Master regarding tail board or tail lamp of passing trains	144
4.18	Means of communication	145
4.19	Guard's and Loco Pilot's equipment	146
4.20	Manning of engine in motion	148
4.21	Driving an electric train	149
4.22	Riding on engine or tender	149
4.23	Brake-vans	150
4.24	Position of brake-van on train	150
4.25	Guards	152
4.26	Couplings	154

D.VEHICLES AND CRANES

4.27	Cranes	154
4.28	Loading of vehicles	155
4.29	Damaged or defective vehicles	158

E. PRECAUTIONS BEFORE STARTING TRAIN

4.30	Loco Pilot and Guard to examine notices before starting	159
4.31	Examination of trains before starting	159
4.32	Examination of train by Loco Pilot	162
4.33	Examination of single and multiple units by Loco Pilot	162
4.34	Duties of Guard when taking over charge of a train	163
4.35	Starting of trains	165
4.36	Guard to be in-charge of train	166
4.37	Subordination of Guards in station limits	166
4.38	Firemen and Assistant Loco Pilots to obey Loco Pilots	166
4.39	Loco Pilot to obey certain orders	166

F. DUTIES OF STAFF WORKING TRAINS DURING JOURNEY

4.40	Loco Pilot and Fireman or Assistant Loco Pilot to keep a good look-out	167
4.41	Loco Pilot and Fireman or Assistant Loco Pilot to lookback	167
4.42	Exchange of signals between Loco Pilot, Guard and stationstaff	168
4.43	Guard to keep a good look-out	170
4.44	Train held up at first Stop signal	171
4.45	Attracting attention of Loco Pilot	172
4.46	Assistance from Guard's hand brake	173
4.47	Application of Guard's hand brake	173
4.48	Permission of Guard to detach engine from train	173
4.49	Starting and stopping of train	175
4.50	Sounding of engine whistle	175
4.51	Bell signals between Loco Pilot and Guard	179
4.52	Throwing out water, fire or cinders	180
4.53	Hose or water crane	180
4.54	Passengers	180

D. DUTIES OF STAFF ON ARRIVAL

4.55	Shutting off power	180
4.56	Guard to see that train is stopped clear of fouling marks	180
4.57	Detaching engine	181
4.58	Loco Pilot to see that train is stopped clear of fouling marks	181
4.59	Guard not to Moving of train carrying passengers after it has been stopped at a station	181
4.60	leave train till handed over	182
4.61	Loco Pilot not to leave engine when on duty	182

H. WORKING OF MATERIAL TRAINS

4.62	Working of a Material train in a block section	182
4.63	Workers on Material train	185
4.64	Protection of Material train when stabled	185
4.65	Working of track maintenance machines	186

I. PRIVATE ENGINES AND VEHICLES

4.66	Private engines and vehicles	189
------	------------------------------	-----

CHAPTER V

CONTROL AND WORKING OF STATIONS

5.01	Responsibility of the Station Master for working	190
5.02	Supply of copies of rules and distribution or exhibition of other documents	191
5.03	Obedience to orders and keeping of books and returns	192
5.04	Signal Cabins	192
5.05	Report of neglect of duty	192
5.06	Station Working Rules	192
5.07	Forms	195
5.08	Access to and operation of equipment	195
5.09	Reception of a train on an obstructed line	195
5.10	Reception of a train on a non-signalled line	197
5.11	Departure of a train from a non-signalled line	198
5.12	Departure of a train from a line provided with a common departure signal	198
5.13	Control of shunting	199
5.14	Responsibility for shunting	200
5.15	Shunting at stations under Centralised Traffic Control	202
5.16	Shunting during reception of trains	202
5.17	Shunting near level crossing	203
5.18	Drawing of a train to an advanced position at night or in thick, foggy or tempestuous weather impairing visibility	203
5.19	Obstruction of running line	203
5.20	Shunting on gradients	205
5.21	Loose shunting	207
5.22	Leaving vehicles in sidings outside station limits	208
5.23	Securing of vehicles at station	208

CHAPTER VI

ACCIDENTS AND UNUSUAL OCCURRENCES

6.01	Accident or obstruction	210
6.02	Working in case of accident or failure of communications	212

6.03	Protection of trains stopped between stations	229
6.04	Trains unusually delayed	233
6.05	Sending advice of accident or breakdown	234
6.06	Train in a block section without authority to proceed	237
6.07	Report of conditions likely to affect running of trains to Controller or Centralised Traffic Control Operator	238
6.08	Train parting	240
6.09	Portion of train left in a block section	242
6.10	Fire	246
6.11	Vehicles escaping from station	247

CHAPTER VII

SYSTEM OF WORKING

7.01	Systems of working	249
7.02	Applicability of General Rules referring to the working of signals and trains	249

CHAPTER VIII

THE ABSOLUTE BLOCK SYSTEM

A. ESSENTIALS

8.01	Essentials of the Absolute Block System	250
------	---	-----

B. CONDITIONS FOR GRANTING LINE CLEAR

8.02	Conditions for granting Line Clear at a class `A` Station	250
8.03	Conditions for granting Line Clear at a class `B` Station	251
8.04	Conditions for granting Line Clear at a Class `C` Station	253

C. OBSTRUCTION – DOUBLE LINE

8.05	Obstruction on double line at a block station when a train is approaching	253
8.06	Obstruction on double line in the block section	254

D. OBSTRUCTION – SINGLE LINE

D.1. CLASS `A` STATIONS

8.07	Obstruction on single line at a class `A` station when a train is approaching	254
8.08	Obstructing the block section at a class `A` station on single line	254

D-2 Class ' B' Stations

8.09	Obstruction in the face of an approaching train at a class `B' station on single line	255
8.10	Obstruction within station section at a class `B' station on single line	255
8.11	Obstruction outside station section at a class `B' single line station equipped with two- aspect signals	256
8.12	Obstruction outside station section at a class `B' single line station equipped with manually operated Multiple Aspect signals	256
8.13	Obstruction outside the first Stop signal at a class `B' station on single line	256

E. General Provisions

8.14	Block back or Block forward	257
8.15	Authority for shunting or obstruction in block section	257
8.16	Illustrative diagrams	258

CHAPTER IX

AUTOMATIC BLOCK SYSTEMS

A. Rules applicable to Double Line

9.01	Essentials of the Automatic Block System on double line	274
9.02	Duties of Loco Pilot and Guard when an Automatic Stop signal on double line is to be passed at `on'	276

B. Rules applicable to Single Line

9.03	Essentials of the Automatic Block System on single line	278
9.04	Minimum equipment of fixed signals in Automatic Block territory on single line	280
9.05	Additional fixed signals in Automatic Block territory on single line	280
9.06	Conditions for taking `off' Manual Stop signals in Automatic Block territory on single line	280
9.07	Duties of Loco Pilot and Guard when an Automatic Stop signal on single line is to be passed at `on'	280A
9.08	Person in-charge of working trains on Automatic Block System on single line	280B

C. Rules applicable to both Double and Single lines

9.09	Working of trains on Centralised Traffic Control territory	280B
9.10	Protection of a train stopped in an Automatic block signalling section	280B
9.11	Loco Pilot to report failures	280C
9.12	Procedure during failure of Automatic signalling	280D
9.13	Movement of trains against the direction of traffic on the Automatic Block System	280S
9.14	Procedure when Semi-Automatic Stop signal is `on'	280T
9.15	Passing a gate Stop signal at `on' in Automatic signalling territory	280U
9.16	Illustrative diagrams	280W

CHAPTER X
THE FOLLOWING TRAINS SYSTEM

10.01	Essentials of the Following Trains System	281
10.02	Report to the Commissioner of Railway Safety	281
10.03	Conditions to be observed in working trains on the Following Trains System.	281
10.04	Delivery of authority to proceed to Loco Pilot or Guard on the Following Trains System	282
10.05	Authority to proceed on the Following Trains System	282
10.06	Responsibility as to proper preparation of authority to proceed on the Following Trains System	283
10.07	Obstruction in face of approaching train or trains on the Following Trains System	283
10.08	Cessation of working on the Following Trains System	283
10.09	Protection of trains on the Following Trains System	283

CHAPTER XI
THE PILOT GUARD SYSTEM

11.01	Essentials of the Pilot Guard System	284
11.02	Conditions to be observed for Following Trains on the Pilot Guard System	284
11.03	Pilot Guard's dress or badge	284
11.04	Pilot Guard to accompany train or give authority to proceed	284
11.05	Pilot Guard's Tickets	285
11.06	Protection of trains on the Pilot Guard System	285

CHAPTER XII
THE TRAIN-STAFF AND TICKET SYSTEM

12.01	Essentials of the Train-staff and Ticket System	286
12.02	System where applicable	286
12.03	Conditions to be observed for following trains on the Train-staff and Ticket System	286
12.04	Loco Pilot to have Train-staff or Train-staff Ticket	286
12.05	Train-staff or Train-staff Ticket: by whom to be delivered to Loco Pilot	286
12.06	Train-staff or Train-staff Ticket: when to be delivered to Loco Pilot	286
12.07	Train-staff to be kept on engine	287
12.08	Trains not to be started until Train-staff returned	287
12.09	Train-staff or Train-staff Ticket to be given up and Ticket to be cancelled on arrival of train	287
12.10	Procedure when engine is disabled on the Train-staff and Ticket System	288
12.11	Train-staff Tickets; how kept	288
12.12	Train-staff; how kept	288
12.13	Distinguishing marks on Train-staff Tickets and boxes	288
12.14	Form of Train-staff Ticket	289

12.15	Record of Train-staff Tickets issued	289
12.16	Obstruction outside the Home signal	289
12.17	Protection of trains on the Train-staff and Ticket System	289

CHAPTER XIII

THE ONE TRAIN ONLY SYSTEM

13.01	Use of the One Train Only System	290
13.02	Essentials of the One Train Only System	290
13.03	Authority to enter the section	290
13.04	Procedure in case of accident or disablement on the One Train Only System	292

CHAPTER XIV

BLOCK WORKING

A. General Provisions

14.01	Means of granting or obtaining Line Clear	293
14.02	Provision of instruments	293
14.03	Consent required before interfering with block working equipment	

B. Block Stations at which Electrical Block Instruments, Track Circuits or Axle counters are provided

14.04	Certificate of competency	294
14.05	Bell code	295A
14.06	Acknowledgement of signals	296
14.07	Train Signal Register	296
14.08	Authority to proceed	297
14.09	Loco Pilot to examine authority to proceed	301
14.10	Conditions for closing the block section	301
14.11	Responsibility of Station Master as to authority to proceed	303A
14.12	Special responsibility as to electrical token instruments and to the token	304
14.13	Failure of electrical block instruments or track circuits or axle counters	304
14.14	Closing of Intermediate Block Post	305

C. Block Stations at which Electrical Block Instruments are not provided

14.15	Transmission of signals	305
14.16	Train Signal Register	305
14.17	Forms for messages and written authority to proceed	305
14.18	Distinction of messages	305
14.19	Writing and signing of messages and written authorities to proceed	306
14.20	Completion of messages	306

14.21	Preservation of messages and written authorities to proceed	306
14.22	Cancellation of Line Clear	306
14.23	Loco Pilot to have authority to proceed	306
14.24	Authority to proceed; when to be given to Loco Pilot	306

D. Line Clear Tickets

14.25	Line Clear Tickets	307
E. Use and Operation of Block Working Equipment		
14.26	Use and operation of block working equipment	307

CHAPTER XV

PERMANENT WAY AND WORKS

A. Railway Servants employed on the Permanent Way or Works

15.01	Condition of Permanent Way and Works	308
15.02	Maintenance of line	308
15.03	Keeping of material	308
15.04	Inspection of Permanent Way and Works	308
15.05	Patrolling of lines	309
15.06	Works involving danger to trains or traffic	323
15.07	Works in thick, foggy or tempestuous weather impairing visibility	339
15.08	Precautions before commencing operations which would obstruct the line	339
15.09	Showing of signals	342
15.10	Assistance in protection of trains	352
15.11	15.10 Gangmate in each gang	352
15.12	Knowledge of signals and equipment of gang	352
15.13	Inspection of gauges, signals, tools and implement	352
15.14	Responsibility of Gangmate as to safety of line	352
15.15	Blasting	354
15.16	Putting in or removing points or crossings	354
15.17	Duties of Gangmate and Gangman when apprehending danger	354

A. The Working of Lorries, Trolleys and Motor Trolleys

15.18	Distinction between trolley, lorry and motor trolley	354
15.19	Red flag or light to be shown	355
15.20	Equipment of trolley, lorry or motor trolley	355
15.21	Efficient brakes	356
15.22	Qualified person to be in-charge of lorry or trolley when on the line	357
15.23	Attachment to train prohibited	359

15.24	Time of running	359
15.25	Motor Trolley	370
15.26	Protection of trolley on the line	377
15.27	Protection of lorry on the line	378
15.28	Lorries and trollies out of use	381

CHAPTER XVI

LEVEL CROSSINGS

16.01	Knowledge of signals	382
16.02	Supply and care of equipment	382
16.03	Road traffic	383
16.04	Gateman to observe passing trains	388
16.05	Channel for flange of wheels	388
16.06	Defects at level crossings	389
16.07	Obstructions at level crossings	390
16.08	Parting of a train	390
16.09	Trespassing	391
16.10	Transfer of charge of gate	391
16.11	Height gauges	391

CHAPTER XVII

WORKING OF TRAINS ON ELECTRIFIED SECTIONS OF RAILWAYS

17.01	Applicability of General Rules	392
17.02	Special definitions applicable to this Chapter	392
17.03	Inspection of electrical way and works	398
17.04	Permit-to-work on electrical equipment	399
17.05	Warning to staff and public	399
17.06	Alterations to track	400
17.07	Tripping of circuit breakers of locomotives and electrical multiple units at neutral sections	401
17.08	Tower wagon	402
17.09	Additional rules for electrified sections	405

CHAPTER XVIII

MISCELLANEOUS

18.01	Repeal and Saving	414
-------	-------------------	-----

APPENDIX
